## Our New African Mission — “The Jesus Conference”

We have begun! In late June we hosted our first “**Jesus Conference**” in the city of Eldoret, in Kenya. This conference was done with videos created by Benedicta and me, played on a large screen television. It is geared toward pastors, evangelists, Bible teachers, and young people who feel called to minister the word of God.

This is a four-day event, with a total of twenty video sessions, along with talks by local pastors and discussions after each video lesson. We also provided breakfast, lunch, and a snack at the end of the day. We have received phenomenal feedback. The pastors, evangelists, and teachers absolutely loved the conference and the format in which it was presented. They were so excited that many were immediately asking for another similar conference, but since there are so many cities we want to reach throughout Africa, that will probably not happen soon.

**This Conference is all about Jesus Christ**—who He is, what He taught, our need to abide in Him, and the importance of keeping Him central in our preaching and teaching. It is based on powerful insights the Lord has given me in my 45 years of ministering the word of God. Thank you so much for sponsoring this important conference in Kenya. It is my prayer and desire that this may be the first of many more such conferences in the days to come!
